

STANDARD SPIRAL PROTECTION

Helixguard Spirals are made to protect hydraulic and pneumatic hoses against shocks, abrasion and deteriorations.

As cost effectiveness is set to become a way of thinking, our Helixguard Spirals can help you reduce your maintenance costs and equipment downtime.

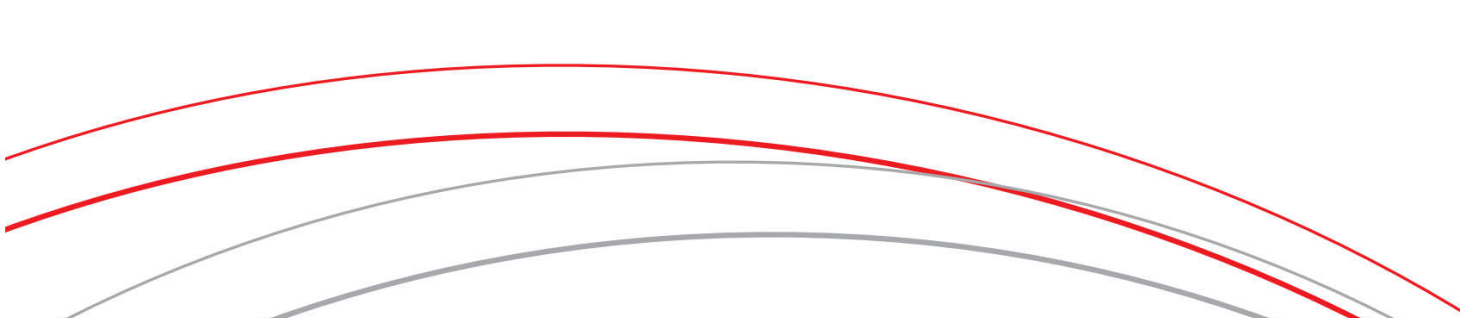

Made from HDPE (High Density Polyethylene) the spiral wrapping can easily be mounted on existing or new assembled hydraulic hoses, giving them protection against wear and damage caused by aggressive working conditions.

Other advantages of the Helixguard Spiral protection:

- Can be used for a single hose or a bundle of hoses.
- Suitable for use with equipment operating across a wide temperature range from 50°C up to 120°C.
- Rounded edges for easy and safe mounting.
- Suitable for use with all hydraulic fluids including glycol and phosphate ester based products.

Standard color is black, also available in yellow, blue and red.

SPIRAL PROTECTION

PRODUCT CODE	INTERNAL DIAMETER (mm)	EXTERNAL DIAMETER (mm)	WALL THICKNESS (mm)	HELIX WIDTH (mm)	METER/ BOX	WEIGHT/ BOX (kg)	BOX DIMENTIONS (mm)
